

Kate Versage, MA

Haven Youth and Family Services IYIP Program Manager and Fundraising Coordinator

Kate completed her Masters in Mental Health Counseling with Specialization in Expressive Arts Therapy at Lesley University. Kate's clinical experience and interests include LGBTQ+ affirmative therapy, gender, and sexualidentity development, self-image and awareness, and LGBTQ+ parent support.

Kate is passionate about the expressive arts, which can consist of art, music, drama, writing, and movement techniques and can provide clients an opportunity to express themselves in ways that sometimes traditional talk therapy is unable to do. It is important to understand that an individual does not need to be an "artist" or "writer" in order to find the expressive arts beneficial and empowering.
